

START YOUR APPRENTICESHIP

BECOME AN ELECTRICIAN OR AIR CONDITIONING MECHANIC

What is an Apprenticeship?

An apprenticeship combines paid employment with nationally recognised training, allowing you to earn while you learn. As an apprentice, you'll work alongside qualified tradespeople while completing your formal training through scheduled face-to-face classes and practical workshops.

At Superior Training Centre, apprentices attend training at our **Ingleburn** or **Mt Druit** campuses while gaining real-world industry experience with their employer.

Who can do one?

Apprenticeships are ideal for:

- School leavers looking to start a hands-on career
- Existing workers wanting to gain a formal qualification
- Employers wanting to upskill staff
- Anyone passionate about building a career in the trades industry

No previous experience is required to commence most apprenticeships. Apprenticeships require an employer willing to sign the individual on as an apprentice, along with a commitment to learning both on the job and in the classroom.

Where to begin

Start your journey.

Connect with a GTO for host employer matching, or an ACAP to kickstart registration.

Connect with an employer.

Match with a host employer to earn while you learn.

Ready to commence.

Complete your paperwork and sign your Training Plan Proposal (TPP)

When can you start?

With more than 10 intakes scheduled throughout the year, Superior Training Centre offers flexible commencement dates to help apprentices start when they're ready.

Qualifications available:

- UEE30820 Certificate III in Electrotechnology Electrician
- UEE32225 Certificate III in Air Conditioning Refrigeration

Smart and Skilled

Eligible students under the Smart and Skilled program will have their tuition fees subsidised by the NSW Government
